## IN THE CLAIMS

### Amendments To The Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

### Listing of Claims:

1. (Currently amended) A motorcycle having front and rear wheels, said front wheel being steerably supported by a front fork with a head pipe, said rear wheel having suspension, said motorcycle comprising:

an engine having a front portion and a rear portion, said engine being provided with a case and a cylinder portion, ~~said cylinder portion including a cylinder block and a cylinder head, said upper portion of said case being in unity with one of said cylinder block and said cylinder head to form a part of the body frame.~~ block formed on an upper portion of said case, said engine including a cylinder head attached to said cylinder block, said cylinder head and said cylinder block forming a contact surface, said engine tilting forward in said motorcycle so that said contact surface tilts downward;

a front frame connecting the front portion of said engine with said head pipe, said front frame having upper and lower joining portions, said lower joining portions being joined to said ~~one of said cylinder block and said cylinder head which is in unity with said case engine,~~ said lower joining portions being formed in an upper end portion of said cylinder block near the contact surface between said cylinder head and said cylinder block, said lower joining portions having a front side joining portion formed in an upper portion of a front end of said cylinder block and a rear side joining portion formed in an upper portion of a rear end of said cylinder block, said rear side joining portion being higher than said front side joining portion due to said engine tilt ; and

a rear frame which is separate from said front frame connecting the rear portion of said engine with said suspension of said rear wheel;

wherein ~~said part and~~ said front and rear frames are joined to said engine to form a body frame for said motorcycle.

2. (Currently amended) The motorcycle in accordance with claim 1, wherein said lower joining portions of the front frame comprise a pair of opposing members, said members projecting inwardly to overlap said cylinder portion of said engine.
3. (Cancelled)
4. (Original) The motorcycle in accordance with claim 1, wherein in a side view said front frame has a first end portion on a first side where the cylinder portion is joined to the front frame and a second end portion on a second side where the front frame is connected with the head pipe, said first end portion being wider than said second end portion.
5. (Previously presented) The motorcycle in accordance with claim 1, wherein said front frame has a middle portion which is convex upward and rearward and in a side view said front frame overlaps the cylinder head and said motorcycle has a radiator placed between said head pipe and the cylinder head.
6. (Cancelled)
7. (Cancelled)
8. (Cancelled)
